TECHNICAL SKILLS

Languages & Frameworks: Dart, Flutter, Clean Code

State Management: Provider, BLoC (learning)

Backend & APIs: Firebase (Auth-Firestore-Storage), REST API, HTTP/Dio, JSON Parsing, JWT Authentication

Architecture & Patterns: MVVM, Clean Architecture, Repository Pattern, Dependency Injection

Tools & DevOps: Git/GitHub, CI/CD,, VS Code, Android Studio, Postman, Firebase Console, Chrome DevTools

PROJECTS

Task manager with provider / *Flutter, RestApi, Provider*

Oct 2025 - Oct 2025

- Developed cross-platform mobile applications using Flutter
- Implemented state management solutions with Provider
- Maintaining state with Provider State management

Weather App with provider / *Flutter, RestApi, Provider*

Dec 2025

- Developed cross-platform mobile applications using Flutter
- REST Api integration using HTTP package
- Managed project in separate branch in git hub

E-Voting Simulation | *Flutter, Firebase, Dart* / *Dart, Flutter, Firebase,*

Dec 2025

- Built a secure e-voting platform with Firebase Authentication and Google Sign-In, ensuring one vote per verified user
- Implemented real-time vote counting with Firebase Firestore, enabling instant results across 50+ concurrent users
- Designed role-based access (Admin/Voter) with session management to prevent unauthorized access and duplicate voting

EDUCATION

Diploma In computer Engineering

(Expected - 2028)

National Polytechnic College, Chattogram

Chattogram, Bangladesh

Higher Secondary Certificate

2023

Chattogram City Corporation Commerce College

Chattogram, Bangladesh
